EDUCATION

PhD in Biostatistics , University of Minnesota	Jun 2020
MS in Biostatistics , University of Minnesota	Aug 2017
Master of Social Work , New York University	May 2013
BS in Management Information Systems , Chu Kochen Honors College, Zhejiang University	Jun 2011

EMPLOYMENT

Assistant Professor Department of Biostatistics and School of Data Science, City University of Hong Kong	Jul 2022 – Present
Postdoctoral Research Scientist Department of Biostatistics, Columbia University Advisor: Prof. Iuliana Ionita-Laza	Jul 2020 – Jun 2022
Lecturer School of Management, Zhicheng College, Fuzhou University	Aug 2013 – Jul 2015

TEACHING

Teaching Assistant, Division of Biostatistics, University of Minnesota Audience: graduate students in allied health sciences PubH 6450 Biostatistics 1; PubH 6414 Biostatistics Literacy	Sep 2015 – May 2016
Lecturer, School of Management, Zhicheng College, Fuzhou University Audience: second- and third-year undergraduate students Probability and Statistics; Database Systems; Computer Networks; Management Information Systems	Aug 2013 – Jul 2015

PRESENTATIONS

Invited:

1. Columbia University Center for Precision Medicine and Genomics and Institute for Genomic Medicine, New York, NY. “KnockoffTrio: Variable selection in genetic association studies with trio design”, June 2022.
2. City University of Hong Kong School of Data Science, Hong Kong, China. “Knockoff statistics for variable selection in genetic association studies with trio design”, Mar 2022.
3. Beijing Normal University Young Scholars Forum, Beijing, China. “Bayesian hierarchical models and knockoff statistics for variable selection”, Dec 2021.

Contributed:

4. Columbia University Irving Medical Center Statistical Genetics Journal Club, New York, NY. “Knockoff statistics and applications to genome-wide association studies”, May 2021.

5. The 2019 Joint Statistical Meetings (JSM), Denver, CO. “A Bayesian hierarchical variable selection prior for pathway-based GWAS using summary statistics”, July 2019.
6. The 2019 American Statistical Association (ASA) Twin Cities Chapter spring event, Minneapolis, MN. Poster presentation, “A Bayesian hierarchical variable selection prior for pathway-based GWAS using summary statistics”, April 2019.
7. The 2018 Joint Statistical Meetings (JSM), Vancouver, BC, Canada. “A Bayesian gene-based GWAS analysis of osteosarcoma trio data using a hierarchically structured prior”, July 2018.

HONORS AND AWARDS

Jacob E. Bearman Student Achievement Award, University of Minnesota	2020
People’s Choice Best Student Poster Award, University of Minnesota	2019
Student Senate Professional Development Award, University of Minnesota	2019
Dean’s PhD Scholars Award, University of Minnesota	2017
Outstanding Research Assistant Award, University of Minnesota	2017
Biostatistics Summer Institute Scholarship, University of Washington	2017
John E. Connett First-Year Student Award, University of Minnesota	2016
Shirley M. Ehrenkranz Scholarship, New York University	2012
Outstanding Undergraduate Thesis Award, Zhejiang University	2011
First Prize, National Olympiad in Informatics, China	2002-2004 & 2006

SOFTWARE DEVELOPMENT

1. KnockoffTrio: R package for identification of causal loci with false discovery rate control in genome-wide association studies for family trio data. It also provides a meta-analysis module for combining results of multiple studies.
2. HSVS-M: R package for the multivariate hierarchically structured variable selection (HSVS-M) that tests multi-variant multi-trait association using summary statistics.
3. HSVS-A: R package for the adaptive hierarchically structured variable selection (HSVS-A) for rare-variant association testing using genotype data.

ACADEMIC SERVICES

Peer review: Cell Genomics
 Senate member: The University Senate of City University of Hong Kong
 Seminar chair: Biostatistics Seminar Series at City University of Hong Kong
