EDUCATION

| | |
|--|----------|
| PhD in Biostatistics , University of Minnesota | Jun 2020 |
| MS in Biostatistics , University of Minnesota | Aug 2017 |
| Master of Social Work , New York University | May 2013 |
| BS in Management Information Systems , Chu Kochen Honors College, Zhejiang University | Jun 2011 |

EMPLOYMENT

| | |
|--|---------------------|
| Assistant Professor Department of Biostatistics and School of Data Science, City University of Hong Kong | Jul 2022 – Present |
| Postdoctoral Research Scientist Department of Biostatistics, Columbia University Advisor: Prof. Iuliana Ionita-Laza | Jul 2020 – Jun 2022 |
| Lecturer School of Management, Zhicheng College, Fuzhou University | Aug 2013 – Jul 2015 |

TEACHING

| | |
|--|---------------------|
| Teaching Assistant, Division of Biostatistics, University of Minnesota Audience: graduate students in allied health sciences PubH 6450 Biostatistics 1; PubH 6414 Biostatistics Literacy | Sep 2015 – May 2016 |
| Lecturer, School of Management, Zhicheng College, Fuzhou University Audience: second- and third-year undergraduate students Probability and Statistics; Database Systems; Computer Networks; Management Information Systems | Aug 2013 – Jul 2015 |

|----------------------|
| PRESENTATIONS |
|----------------------|

Invited:

1. Columbia University Center for Precision Medicine and Genomics and Institute for Genomic Medicine, New York, NY. “KnockoffTrio: Variable selection in genetic association studies with trio design”, June 2022.
2. City University of Hong Kong School of Data Science, Hong Kong, China. “Knockoff statistics for variable selection in genetic association studies with trio design”, Mar 2022.
3. Beijing Normal University Young Scholars Forum, Beijing, China. “Bayesian hierarchical models and knockoff statistics for variable selection”, Dec 2021.

Contributed:

4. Columbia University Irving Medical Center Statistical Genetics Journal Club, New York, NY. “Knockoff statistics and applications to genome-wide association studies”, May 2021.

5. The 2019 Joint Statistical Meetings (JSM), Denver, CO. “A Bayesian hierarchical variable selection prior for pathway-based GWAS using summary statistics”, July 2019.
6. The 2019 American Statistical Association (ASA) Twin Cities Chapter spring event, Minneapolis, MN. Poster presentation, “A Bayesian hierarchical variable selection prior for pathway-based GWAS using summary statistics”, April 2019.
7. The 2018 Joint Statistical Meetings (JSM), Vancouver, BC, Canada. “A Bayesian gene-based GWAS analysis of osteosarcoma trio data using a hierarchically structured prior”, July 2018.

HONORS AND AWARDS

| | |
|--|------------------|
| Jacob E. Bearman Student Achievement Award, University of Minnesota | 2020 |
| People’s Choice Best Student Poster Award, University of Minnesota | 2019 |
| Student Senate Professional Development Award, University of Minnesota | 2019 |
| Dean’s PhD Scholars Award, University of Minnesota | 2017 |
| Outstanding Research Assistant Award, University of Minnesota | 2017 |
| Biostatistics Summer Institute Scholarship, University of Washington | 2017 |
| John E. Connett First-Year Student Award, University of Minnesota | 2016 |
| Shirley M. Ehrenkranz Scholarship, New York University | 2012 |
| Outstanding Undergraduate Thesis Award, Zhejiang University | 2011 |
| First Prize, National Olympiad in Informatics, China | 2002-2004 & 2006 |

SOFTWARE DEVELOPMENT

1. KnockoffTrio: R package for identification of causal loci with false discovery rate control in genome-wide association studies for family trio data. It also provides a meta-analysis module for combining results of multiple studies.
2. HSVS-M: R package for the multivariate hierarchically structured variable selection (HSVS-M) that tests multi-variant multi-trait association using summary statistics.
3. HSVS-A: R package for the adaptive hierarchically structured variable selection (HSVS-A) for rare-variant association testing using genotype data.

ACADEMIC SERVICES

Peer review: Cell Genomics
